COMPACT DIMENSIONS

Maintenance and Repair - The **Compact** features easily removable cushions for serviceability and detachable backrest assembly for vehicle service work.

Health and Safety

It is important that drivers of work vehicles are fully protected from harmful vibrations. KAB Compact seats can eliminate up to 70% of these. Careful seat selection is important and through consultation with KAB Seating's network of Authorised distributors the appropriate seat choice can be made to fit most popular brands.

Installation

Care should be taken to ensure a correct installation is made and the seat suspension movements and adjustments are free from obstructions in the cab area.

Maintenance

KAB Seating provides a full range of service parts to ensure seats can be maintained properly, key wear items such as shock absorbers, seat cushions and air valves should be replaced on a regular basis in accordance with the type of usage, amount of usage and environmental factors.

Regular removal of dust and dirt from the seat and cabin will improve the longevity of the Compact seat.
